

Request for Proposal
For
Pump Station No. 5 Pipe Lining

1. **Project Description:** Lining of 60LFT of 30” existing pipe for Pump Station #5. Also, the installation of two (2) concrete bulkheads and the grouting of annular space as per US Army Corps of Engineers requirements.
2. **Project Need:** The existing stormwater pipe has deteriorated. The City of Paducah is performing a construction project in the area and wishes to prevent future damage to new construction by proactively repairing the pipe in situ.
3. **Scope of Work:** The chosen firm will provide all necessary products, equipment, and manpower to perform the process as specified in the selected Proposal.
4. **Method of Work:** The proposal of the selected firm shall determine the method of repair. Open excavation will not be considered.
5. **Proposal Format:** Submittals should address the method of repair, the timeline of repair, the requirements of the selected firm to perform the repair, and excluded items.
6. **Proposal Submission:** Proposals should be submitted in sealed envelopes with “Pump Station #5- Pipelining Project” indicated clearly on the exterior of the envelope.

RFPs should be mailed or hand-delivered to

City of Paducah
City Clerk
RFP: “Pump Station #5 -Pipe Lining Project”
